WHAT DECISION MEANS TO FARMS

JUDGE GRIMM OPENS THE WAY
FOR AVON CANAL.

EVANSVILLE DISTRICT NEXT

This Latter District Would Increase
Acreage And Wealth of the
County Materially.

By the decision of Judge Grimm of the circuit court, that the Avon drainage canal commission had been properly appointed and had fulfilled their appointed task according to law, work on the construction of the canal will be begun this spring. The Avon drainage canal is the opening wedge in the reclamation of many thousands of acres of marsh land in the western portion of Rock county. While it directly effects but twenty-five farmers and will reclaim only four thousand acres of land it successively will be dug which will eventually drain what is now known as the Evansville marsh.

The total estimated cost of the canal will be \$21,726. This is to be divided into individual assessments on the property holders who will be benefited and will range from \$10.63 to \$425.70 each. The commissioners are to be bonded for ten thousand dollars and the assessments are to be paid in five yearly installments. The commission is also authorized to borrow money to build the canal and proceed with the construction.

The canal itself will be some six miles in length with an average depth of five and one-half feet and with a twenty-foot opening at the top and a six foot one at the bottom. Starting near the Green county line it runs through the town of Avon, in places almost paralleling the Sugar river, to a point a few rods north of the Illinois state line, where it empties into the Sugar river. Its course is winding and follows the contour of the land, taking advantage of the depressions in the ground.

The success of this project will mean much to the western part of the county. In spring freshets and times of high water some four thousand acres, it is estimated, are now unprofitable. When the canal is in operation this section will be entirely drained and the land suitable for farming purposes. Farmers to the north of this section will watch with interest the project and be guided by it in a drainage canal planned to take off the surplus water in the town of Center Union, Madison and Porter, and freedom some ten thousand acres of excellent farming land.

The estimated cost of this second undertaking will be in the neighborhood of twenty thousand dollars. The marsh is really a continuation of what is known as the Four Mile creek and its course would be such that it would unite this creek a few rods from its mouth into the Rock river, thus causing no inconvenience as to the ultimate disposal of the surplus water.

The Evansville marsh, or depression, was caused by glacial drift and evidently at some time formed a lake similar to Koshkonong, shallow and very sluggish. At present it is, in early spring and during high water, useless even for hay purposes, except in winter when small crops are harvested after the ice is frozen.

The successful termination of these two propositions would mean a large increase in arable land in Rock county and a corresponding increase in the wealth of the property owners. The Evansville marsh proposition has been held in abeyance waiting Judge Grimm's decision as to the Avon canal and now that all questions are settled work will probably begin to organize the district properly to make the assessments necessary to complete the work.

CARPENTERS MAY GO OUT FIRST OF MAY

Contractors Have Ignored Request
for Advance in Wages—Outcome
Can Not Be Predicted.

It is possible that every union carpenter in the city may strike next Wednesday, the first day of May. Several months ago the workmen notified the master builders that an advance in wages was wanted on this date and the request has been entirely ignored. Whether the actions of the two opposing forces will result in serious friction cannot be foretold.

ROBBED THE MAN WHO GAVE HIM SHELTER

Stranger Who Stopped Overnight at
Cheesemore Farm Departed with
Owner's Watch.

After seeking and obtaining shelter at the Cheesemore farm near Mt. Zion last evening, a stranger departed early this morning with Mr. Cheesemore's watch and some other belongings which he was able to lay his hands on. The theft was discovered and the man overtook a short distance from the farm and some of the officers recovered, but the watch could not be found on his person. A message was received at the police station about ten o'clock giving a description of the thief and requesting that he be arrested; should he put in an appearance in Janesville.

MISS BROOKINS AT THE MYERS THEATRE

Noted Christian Science Exponent
Spoke to Good-Sized Audi-
ence Last Night.

Miss Brookins, prominent in the Christian Science church, spoke before a goodly sized audience at the Myers Theatre last evening. She was introduced to the audience by Mrs. Julia Lovejoy and her talk, which consumed the better part of two hours, explained many mistaken ideas regarding the religion which has gained such undue prominence at present owing to the bitter attacks which have been made upon Mrs. Eddy, the founder. She divided her subject into topics, treating on the tions, one sure way, fallacy of matter, good works, not prayerless, mental training and good advice. The speaker believed that the time had come for the recognition of the Christian Science church as a subject of more than superficial interest. She places it upon the basis of a true religion, true Christianity and a true religion. The motives of Jesus' life were taken up and frequent quotations from the Bible showed how this great work was carried on. He was called the Master Metaphysician whose teachings had become obscured through the ages until rediscovered and revealed by Mrs. Mary Baker Eddy. The speaker said: "We also believe that the teachings of this Science, once thoroughly understood, and right practiced, are fully adequate to the accomplishment of even so infinite an end as that set forth by Jesus, when he said 'I ye therefore perfect, even as the Father, which is in heaven, is perfect.'"

"First of all be it known that Christian Science is not something that Mrs. Eddy has invented, or manufactured in some storehouse, or is not a system of human conjecture. It is not a system of mental therapeutics in which the muscles or organs or elements of mortal mentality are manipulated for the benefit of the sick."

Mrs. Eddy's conviction of her discovery was touched upon and a brief resume of her life, relative to religious tendency, was given. The speaker affirmed that the religion was merely the rediscovery of the teachings of Jesus. The speaker dwelt for some time upon the non-existence of matter, explained the workings of the science as to the curing of ailments, the supremacy of mind over matter, the seeking of divine favor by prayer was explained as part, an essential part, of the religious training. In speaking of mental training the speaker said:

"We would not close the schools but would permeate them with higher ideals. We would foster a preference for those studies and pursuits that enable the learner to be absent from the body and to devote attention to the purer, more wholesome, more profitable contemplation of deathless, limitless soul."

In view of the fact that alchemy and astrology, once rated as higher branches of education, have long since been relegated to the shades of oblivion, we should not hesitate to let anatomy, physiology, hygiene, and kindred subjects follow in their train, as these, too, are shown to be equally allied with superstitions outgrown and so we shall gain time and opportunity to institute instead a research among the imperishable resources of Mind."

FOUR NEW LAUNCHES AFLOAT ON RIVER

Fred Burpee, L. D. Barker, Charles Schwartz and Charles Weirick
Are the Commodores.

Four new launches were floated in Rock river yesterday and are either being operated or put in condition today. The owners of the craft are Fred Burpee, L. D. Barker, Charles Schwartz and Charles Weirick. All the boats were built by the Racine Boat company of Muskegon, Mich. are fitted with gasoline engines and will carry ten to fifteen people.

BRIEF LOCAL NEWS.

Spend Night at Lock-Up: Mrs. Michael Burns, whose husband has departed for Ireland, became intoxicated and spent last night and most of today in detention at the city hall. Her little six year old daughter was taken away from her and committed to the care of the Sisters this morning. It was expected that Mrs. Burns would be released about four o'clock this afternoon.

C. J. Hager was in Johnsons Creek yesterday.

Mrs. Margaret Bugas has returned from a four weeks' visit with relatives and friends in Iowa and Minnesota.

J. B. Simpson of Shullsburg had business in the city last evening.

Atty. Frank B. Wynn of Madison, is transacting business here.

Mr. and Mrs. George E. Willis and A. R. Bearson of Rockford, visited in Janesville last night.

John H. Bartelsen and R. E. Smith of Evansville, were in the city last evening.

Frank H. Farnsworth is on a short business trip through the Dakotas.

Mrs. J. D. Brownell was called to Chicago today by the illness of her mother, Mrs. Hallett.

Miss Edna Rogers returned today from a visit with her sister, Mrs. J. P. Bennett, at Johnsons Creek.

MORTUARY NEWS.

Jennie W. McFadyen, who had been ill with Bright's disease for over ten weeks past, passed away at the home of her parents, Mr. and Mrs. C. S. MacFadyen, 158 Terrace street, shortly after eleven o'clock last evening. Deceased was a member of the Presbyterian church and her loss will be deeply mourned by her many friends in the congregation. Funeral services will be held at four o'clock Saturday afternoon and the remains are to be taken to Oconomowoc for burial Sunday.

Mrs. William Trotter.
All that is mortal of the late Mrs. William Trotter was tenderly laid at rest in Mount Olivet cemetery this morning, funeral services being held at St. Patrick's church at nine o'clock. Rev. J. J. McGinnity was the officiating clergyman and the pall bearers were Thomas Heffernan, James Horn, William Flack, J. Flack, Ed. Biers and Frank.

Mrs. Louise Bahr.
The funeral of the late Mrs. Louise Bahr was held from the home of her daughter, Mrs. Harder, Eastern Ave., at two o'clock this afternoon and services were conducted at St. Paul's German Lutheran church at half past two o'clock. Rev. C. J. Koerner officiating. The interment was in Oak Hill cemetery.

BONDS STOLEN WERE MORE THAN \$400,000

W. O. DOUGLASS TOOK THEM TO COMPEL LENIENCY.

SO SAYS GOTHAM PAPER

Conspirators Tried to Engage Josiah Quincy as Counsel—Newport Lawyer Offered Settlement Proposition.

New York, April 26.—The World says: "It was learned Thursday that the amount of bonds stolen from the Trust Company of America by William O. Douglass, the assistant loan clerk, was in excess of \$400,000. All of these bonds are now in the possession of the trust company or have been located."

"It was learned that the major part of the stolen bonds were taken from the strong box of the company by Douglass shortly before he fled on Friday last."

"His purpose in doing this, it was claimed Thursday, was to compel the company to overlook his smaller thefts if he should return this block."

Wanted Quincy as Counsel.
"It also developed that when this plan had been worked out either Douglass or Dennett wrote a letter to Josiah Quincy, former mayor of Boston, asking him to act as their counsel in the matter and to undertake the task of reaching a settlement with the Trust Company of America."

"It is understood that Mr. Quincy declined the retainer tendered to him. On Sunday a lawyer from Newport, R. I., called at the home of Oakleigh Thorne, president of the Trust Company of America, and it is understood, submitted to him, a proposition for reaching a settlement."

"Mr. Thorne declined the offer. At the time the Newport lawyer was a visitor at Mr. Thorne's house Douglass was already under arrest and Dennett was under surveillance. Mr. Thorne did not communicate this news, however, to his visitor."

"On Monday when Douglass was arraigned in court, Robert Honey, of Newport, appeared as his lawyer. He said that he was retained by a third party to defend the young man. The identity of this third party has never been disclosed."

Rumors Not Confirmed.

Secrecy surrounds the work of the district attorney's office and the private detective bureau charged with running down those responsible for the theft of the bonds. Throughout the day there were rumors that many of the missing bonds had been found under the flooring of Dennett's office in Wall street. This could not be officially verified, nor could the still more persistent report that the brains of the conspiracy against the trust company were to be found in the person of a Boston lawyer yet unnamed publicly.

TELLS OF MURDER CONSPIRACY.

San Francisco Exposes Alleged Plot to Slay Labor Leader.

San Francisco, April 26.—A sensational story was sprung in labor circles Thursday night of an alleged conspiracy and plot to kidnap and murder P. H. McCarthy, president of the Building Trades Council and one of the most prominent labor leaders in this city. The alleged plot is laid bare in a remarkable affidavit and confession made by H. Shuckley, one of the alleged conspirators, in which he implicates five other members of electrical Union No. 6. Harry Sullivan and M. H. Carmody are under arrest.

SHORTAGE OF \$92,000 FOUND

WOONSOCKET COMPANY STOCK-HOLDERS MAY HAVE TO PAY.

General Manager Resigns on Request and Gives Up Property Valued at \$40,000.

Woonsocket, R. I., April 26.—A shortage of about \$92,000 in the accounts of the Woonsocket Electric Machine and Power company was revealed Thursday by the issuance to the stockholders of the company of a circular letter announcing that a heavy shortage had been discovered. The letter, which was issued by order of the directors, further stated that the resignation of Levi Cook Lincoln, secretary-treasurer and general manager of the company, had been accepted.

John J. Heffernan, counsel for the directors of the company, said: "I believe the amount of the shortage is about \$92,000. Mr. Lincoln has resigned and has turned over to the company property which he claims is worth \$40,000."

After reading the circular letter of the directors and the statement of Mr. Heffernan, Mr. Lincoln said:

"I admit the situation is substantially as stated. Further than this I must decline to be interviewed. I take this step upon the request and the advice of our directors and the purchasers."

Recently negotiations have been under way for the sale of the business to the firm of Estabrook & Co., and the circular says that the alleged embezzlement will not interfere with this sale, although the stockholders may be called upon to make good any deficiency.

President George Batcheller, of the Woonsocket Machine & Power company, is a member of the state commission to the Jamestown exposition and went to Jamestown Wednesday. He was notified by telephone of the resignation of General Manager Lincoln and the other developments of the day, and announced his intention of returning to Woonsocket at once. Pending his return it was announced that no further action in relation to the situation would be taken.

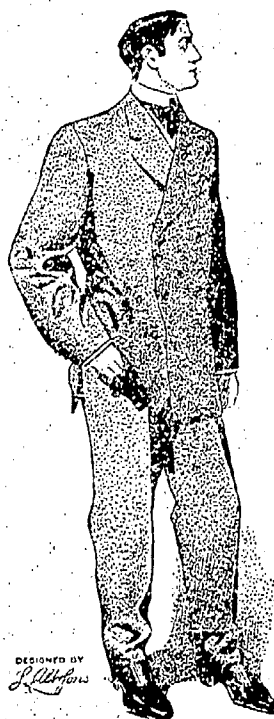

Fishing for Sheep.

When sheep were introduced into Cornwall, England, a flock of them ran into the sea and were floated by their wool. Some fishermen saw them, and thinking them to be a new species of fish, made haste to try to catch them with hooks and nets. Next morning they brought home a catch whose value was greater than any load their boats had ever carried.

The Reason Why the "Apex" is Superior to All Other Fences.

Large, heavy, strong wires throughout. Top and bottom wires extra heavy. Closely spaced at bottom to make fence hogproof. Very best quality of especially tempered, heavy galvanized steel wires made for fence purposes. Long tension crimps prevent heat or cold from having any effect on the "APEX." Double strength stays that lap over each other. Stays can not slip on the line wires. The "Swinging Joint" allows the "APEX" to go over hills or into hollows without sagging, or bending, or straining the stay wires in the least. Examine the fence and you will be convinced that the "APEX" is the best.

CONVERSATIONALLY.

"I think one ought to come up and see you a few times before having their dental work done," said a lady patient the other day.

She meant for them to get used to the office and the dentist in order to get over the condition of dread and fright which many people work themselves into when they think they have to go to the dentist.

This was her second visit to Dr. Richards and she had just had several bad teeth extracted.

She was greatly pleased to find how easy Dr. Richards made it for her. And wondered that she ever could have feared the experience so much. "Didn't hurt you?" said the husband.

"No, not enough to mention," said she.

That's the way it goes every day in Dr. Richards' office.

Patients fearful and timid, timidity finally removed, dental work finished, patients amazed at the freedom from pain.

Patients thankful and express their gratitude.

And then they send their friends. Try him for yourself and family. He is also a reasonable man in his prices.

Victory Solves the Problem

How many of you good cooks have had flour trouble?

How many of you have been disappointed when the bread came out of the oven or the rolls came to the table?

How many of you have been able to make the same good bread week in and week out?

Your flour is the base of your work—poor flour, poor bread, poor rolls, biscuits, etc. The best cook cannot make good baking with poor flour.

VICTORY FLOUR IS GOOD FLOUR.

It is made with care; every sack is of the same good quality. If you have arrived at the point where you want a continually good, dependable flour order a sack of Victory and insist on having it. Telephone us if your grocer does not handle it.

HANS TROFTEN DEAD IN CHAIR

DISCOVERY WAS NOT MADE TILL ONE THIS AFTERNOON.

IN HIS HOTEL LONDON ROOM

Was Former Secretary and Treasurer of Hanson Furniture Co.—Leaves Property Worth \$30,000.

Hans Troften, a resident of Janesville for many years and secretary and treasurer of the Hanson Furniture Co. until about a year and a half ago, died while sitting in a rocking chair at his room in the New London hotel sometime between the hours of nine o'clock last evening and one o'clock this afternoon. His failure to appear at breakfast this morning occasioned no apprehension as it has been his custom of late to sleep late into the morning. But when the noon hour had passed the hotel management became somewhat uneasy concerning him. Mrs. Fred R. Jones, wife of the landlord, secured a step ladder and climbing up, looked through the transom. The gas was burning low and the occupant of the room appeared to be dozing in his chair. She decided not to disturb him for a while, but at one o'clock she made up her mind that he must be awakened. Mr. Jones and City Marshal Appleby went up with her this time and when another observation was taken through the glass it was noticed that the arms were hanging limply over the chair arms and other evidences tended to convince that the man was dead. When the key, which had been turned from the inside, had been worked out with a pair of scissors and the door unlocked, it was discovered that Mr. Troften had been dead for many hours, and the conjecture that he had sat down last evening to rest awhile in his chair before retiring and had quietly passed out of this world early in his slumber, seemed entirely probable. The remains were taken to Ryan's undertaking rooms. The first notification to the daughter, Miss Clara J. Troften, who lives with Mrs. Martin Paulson at 65 Pearl street, was unintentionally conveyed through the Gazette office about three-quarters of an hour later.

Mr. Troften came to this country from Norway. For many years he boarded at the old Hotel Myers and was a familiar figure in the lobby of that hostelry. After the new management took charge he removed to the Hotel London where he had since made his home. He was a victim of kidney and heart trouble and superfluous flesh and a lethargy resulting from his ailments caused him to sit for hours dozing in his chair, even in the daytime. Only recently Landlord Jones urged the necessity of going to some sanitarium for treatment, or at least securing quarters where his needs could be better attended to, but he would not be persuaded. Last summer, under a course of treatment, he decreased his weight by fifty pounds.

Deceased was about sixty-five years of age. His wife died during the infancy of his daughter and she was reared at the Paulson home where she still resides. Every Sunday it was his invariable custom to pay her a visit. He was last seen on the streets yesterday. It is understood that he leaves property worth about \$30,000.

GOSSARD COMPANY'S PLAN'S INDEFINITE

Have Looked Over Janesville Relative to Establishing Branch of Their Company Here.

While nothing definite has been done, J. W. Gossard of the Gossard Corset company, with headquarters in Chicago and a factory at Belvidere, Illinois, has visited Janesville seeking a location for a branch factory. He was so favorably impressed with the prospects in this city, that he made a favorable report to the company at their regular meeting in Chicago a few days ago and it is possible Janesville will be decided upon. Accompanied by J. M. Postwick he visited the building now occupied by the Bassett & Echlin company and was delighted with the location and room, which was ample for their needs. The fact that so many girls are employed in tobacco, making Janesville a headquarters for this class of working people also was in the city's favor. Mr. Gossard was also much impressed with the sanitary condition of Janesville and with the class of people who reside here.

PERSONAL MENTION.

TIME TO BOOM CITY AS A MARKET PLACE

It is Demonstrated That a Monthly Horse Market Will Pay in Janesville.

It has been demonstrated that the Janesville people and the farmers about Janesville want a monthly East Side Hitch stable yesterday were convincing proof that horseflesh is still in demand and if Janesville can offer the outside buyers good animals they will come here by flocks. It is estimated that Chicago parties purchased some thirty odd animals yesterday afternoon, paying as high as \$225 for a choice bit of horseflesh. One farmer east of the city drove in on some business, not remembering it was horse day, was almost assaulted by horse buyers, until he set his price and had the pleasure of having to leave his harness and buggy in town until he can pick up another animal for his own use. These outside buyers spend cash for their purchases, carry big rolls of money in their pockets and this cash finds its way into the till of local merchants. It is a good thing for the city and should be encouraged.

TATE IS IN CHICAGO; SEEKS POLICE TERM

SAFE BLOWER WHO ESCAPED FROM HOSPITAL WANTS TRUCE.

DETECTIVES HUNTING HIM

Conference in Lawyer's Office Discloses Move of Man Who Is Wanted in Peoria Scandal.

Chicago, April 26.—"Eddie" Tate has been located in Chicago, it became known Thursday afternoon, and is considering whether or not to give himself up to the authorities.

The man who blew a safe at Peoria, Ill., and stole school records in an effort to save Newton C. Dougherty, embittered of school funds, and then calmly walked out of the yard of a prison hospital at Peoria Wednesday, may be in custody within 24 hours.

Private Detective Gets Him. He has been found, according to a man who knows the facts, through the efforts of Ben Ettelson, a private detective. Ettelson has not communicated with the police. It is understood that the detective has been in communication with Tate, and has promised not to reveal his whereabouts until the attitude of Chief Shippy is learned.

A conference was held Thursday afternoon in the office of a prominent attorney to determine what should be done with Tate.

Squads of Detectives Busy. Meantime squads of detectives, furnished with portraits and descriptions of the fugitive, are seeking him in Chicago and other cities. It is known that he has influential friends, some of whom furnished him with plenty of money before his escape.

It is known that he scarcely can be captured by ordinary methods, and a friend of Ettelson expressed a belief that the police would be forced to come to some kind of terms as regards the punishment the safeblower is to receive.

Would Force Secret of Hiding. Late in the afternoon the report of Ettelson's activity reached Assistant Chief Schuettler and Capt. O'Brien, and they detailed 20 detectives to find Ettelson and force from him the secret of Tate's whereabouts. Other men were assigned to watch outgoing trains. Earlier in the day they had been assiduously watching incoming trains.

No Telling How Long. Visitor—How long are you in for, my poor man? Prisoner—Dunno, ma'am. Visitor—How can that be? Prisoner—It's a life sentence.

THE GOLDEN EAGLE

MEN'S FINE \$18 TO \$20 SUITS FOR \$15.00

Come here Saturday and pick from a lot of over 200. There's certainly a comfortable feeling about saving anywhere from \$3.00 to \$5.00 on every suit you want. They are not ordinary suits, but garments in which the essentials of style, finish and fit are as perfect as it is possible for human hands to accomplish—Suits that match up to the best you'll find in any other store marked \$18 to \$20. They're the very latest spring models, possessing the snap and dash of Mr. Custom Tailor's fine product at double the price. You can't match them for less than \$18 to \$20.

When you take into consideration the kind of suits these are, the way they are cut, the way they are made, the way they are lined, together with the price,—then you'll appreciate the offer.

\$15

Conspicuous in the lot are new olive shades, club checks, new grays, blue serges, black thibets and fancy mixed chevots, slightly form fitting, flare at back; trousers have 1-4 to 1-2 inch welt seams.

Stein, Bloch & Co.'s Suits and Overcoats

Cannot be compared with any other ready-to-wear garments. Their standard is higher—so high in fact that they are equal, even to the minutest detail, to the clothes of the best tailors. The result is obtained by employing the best skill in making and giving to each individual garment the thorough treatment it would get if made to your special order. Both Suits and Overcoats, in wide range of handsome fabrics and patterns, from..... **\$20 to \$28**

YOUNG MEN'S SPRING SUITS SEPARATE PATTERNS FOR YOUNG MEN

We don't ask young men to wear small sizes of men's shape. ..Forty Years Ago..

Janesville Daily Gazette, Friday, April 26.—1867.—Some Pigeons.—The Merchants Union Express company sent off to New York today, 500 dozens of pigeons. They were taken in nets on the prairie outside the city.

Another Advance in Wheat.—Wheat advanced yesterday in Milwaukee, fifteen cents per bushel. Prospect of a war in Europe is assigned as one cause, and speculation as another.

Doing a Good Work.—The Horticultural Society has been doing a good work this spring in the encouragement it has given in planting trees. The members of the society sent to Delavan and have already procured and brought to this city fully one thousand and shade trees of various choice varieties, a large number of which have already been sold, and the balance are offered for sale at the Hyatt House barn, at the bare cost of obtaining them. It would be a grand thing to have a thousand trees set out in Janesville every year and it would soon have the effect to make this

city one of the most beautiful inland cities in the west. As the park committee of the Common Council has had authority to purchase trees for the park, we presume every dead tree will be replaced by a live one, probably from this lot of hard maples.

A Lecture on Flying.—At a late meeting of the Royal Institution in London, Dr. Pettigrew delivered a lecture on the principle of support and progression in the air, as exemplified in the wings of birds and insects. He pointed out the importance of the screw movement, both as an instrument of support and progress. A certain amount of weight in the flying object was shown to be necessary to its hold on the air. Dr. Pettigrew has evidently great faith in the ultimate success of attempt to devise an apparatus which shall not only maintain itself in the air, but move in a regular direction; and the grounds of his confidence are such as may well justify the belief that the feat is not impossible.

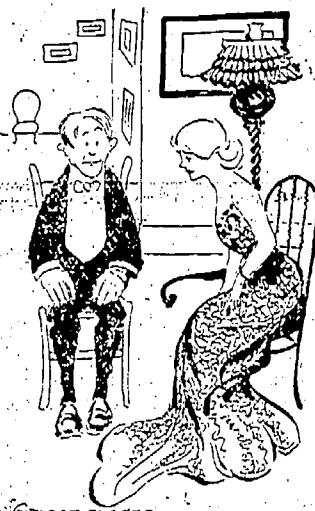

Before The Footlights.

After a remarkable career of prosperity in both New York and Chicago, Klaw & Erlanger announce the forthcoming engagement in this city at the Myers Theatre, Friday evening, April 26, of Geo. M. Cohan's brilliant success, "Forty-Five Minutes From Broadway," which will be seen here with all its wealth of gorgeous stage settings, presented by a company of well established reputation, headed by the peerless Corinne, so long and favorably known as one of America's most famous comedienne. She is surrounded by such capable and well-known people as Scott Welsh, Eugene MacGregor, Claire Grunville, Elphage Snowden, Susan Chisnell, Arthur V. Gibson and an excellent ensemble of many pretty girls. In this play Mr. Cohan has succeeded in doing what many authors have tried to do, but with little success. He has given to the stage a semi-serious play with a musical setting. The musical numbers are all big favorites. "So Long Mary" is now probably more famous than any other song of recent years, while "Mary is a Grand Old Name" is giving it a close race for popularity. With the success of this play Mr. Cohan immediately estab-

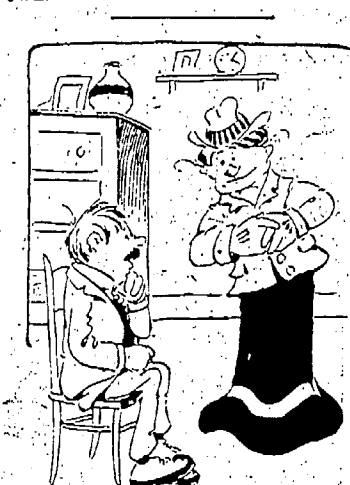

lished himself as the very best writer of this style of stage entertainment in America. The play divided the entire past season and most of the summer between New York and Chicago, having been played twenty consecutive weeks in the former and over thirty weeks in the latter city. Coming to the Myers Theatre, Saturday, April 27, matinee and evening, the Majestic Fashionable High Class Vaudeville Company with seven or more star features. Acts headed by the famous DeMatoes, mysterious jail breakers, hand-out expert Fendini's only living rival. This act has appeared all over the world and has caused a sensation. This will be the only visit to your city of this famous act. Also A. H. Roberts' and his trained bull dogs. Moore & Brown, world's greatest dancers, and four other feature novelties. None of these artists have ever been in your city before and this will be your only chance of seeing them. Fashionable, polite-vaudeville is now the fad; be in line and make the best of this opportunity of seeing the best direct from the largest Chicago vaudeville theatres. Popular prices will prevail.

FREE LOVE BRINGS DISASTER.
Property of Socialist Colony Ordered Sold For Debts.

Bellingham, Wash., April 26.—"Equality," a socialist colony established in 1897, and which for years was pointed to as a successful experiment in collective ownership and production, was wiped out of existence by a court order Wednesday, Judge Joyner, of Skagit county, directing that its property be sold to pay the colony's debts. The property consists of 600 acres of land, sawmill, printing plant and 20 dwellings.

The colony was established by a national organization known as the Brotherhood of the Co-Operative Commonwealth, of which many prominent socialists were members. A portion of the colonists adopted the doctrine of free love and disaster followed.

JURY BRIBING SUSPECTED.

Pittsburg Judge Stops Trial and Arrests May Follow.

Pittsburg, Pa., April 26.—Judge Marshall Brown, in the criminal courts, stopped the trial of Isadore Cutler and Walter Davis, charged with highway robbery, Thursday, because he suspected some of the jurors had been approached by friends of the defendants.

The officers who are prosecuting the men reported to Judge Brown that they saw friends of the defendants talking to the jurors during the noon recess. The case was postponed until next week when a new panel of jurors will be summoned.

The district attorney's office alleges that a well-known politician tampered with the jury. Arrests are expected in the case.

S.S.S. CURES SKIN DISEASES

No skin disease can exist without an underlying cause, and in most instances that cause is either a humor in the blood or an excess of fiery acids in this vital fluid. These humors and acids get into the blood, generally because of an inactive and sluggish condition of those members whose duty it is to collect and carry off the waste and refuse of the body. This unhealthy matter is left in the system to sour and ferment, and soon the circulation becomes charged with the acid poison. The blood, in its effort to rid itself of this foreign matter, begins to throw off the humors and acids through the pores and glands of the skin. These coming in contact with the delicate tissues and fibers with which the skin is so abundantly supplied produces irritation and inflammation on the surface, and Eczema, Acne, Tetter, Psoriasis, Salt Rheum, or some other troublesome and disfiguring skin disease is the result. External applications, while they soothe the itching, and are beneficial in keeping the skin clean, can never cure skin affections, because they do not reach the blood where the real trouble is located. A thorough cleansing of the blood is the only permanent cure for skin diseases. S. S. S., the greatest of all blood purifiers, is the best treatment. It cures by neutralizing the acids and removing the humors from the circulation so that the skin, instead of being irritated and diseased by the exuding acid matter, is nourished and soothed by a cooling, healthy stream of blood. S. S. S. goes down to the very bottom of the trouble, removes the foreign matter and thereby permanently cures every form of skin trouble. Do not expect to cure a blood disease with local applications alone, but begin the use of S. S. S., and when you have removed the cause the skin will be free from disease. Presbyterian Church Entertain-

ment Tuesday Evening,

April 30th.

Mrs. Emma D. Lemmon, a graduate
of the Boston School of Oratory and
a very successful entertainer in the
larger eastern cities will give an en-
tertaining at the Y. M. C. A. hall
under the auspices of the Ladies' Mis-
sionary Society of the Presbyterian
church. She will be assisted by Mrs.
John Rextord and the Janesville Sym-
phony Orchestra. The program will
consist of readings, impersonations,
and music. The entire proceeds go to
the fund of the Ladies' Society, and
every member and friend are cordially
invited to be present and enjoy the
evening's entertainment.

TUESDAY EVENING, APRIL 30, 8

O'CLOCK.—ADMISSION, 25c.

Among the many good words which
those who have heard Mrs. Lemmon
say are the following from "The Morning
Daily," St. Ignace, Mich.:
"Emma D. Lemmon's entertainment
at the M. E. church attracted a large
audience. Her voice is wonderfully
flexible, smooth, bell-like, and she has
it in perfect control. Her presence is
fine; she is beautiful and dresses in
simple elegance. Every gesture is
made in perfect naturalness, and so
easy is her manner that from the first
criticism is disarmed and one settles
down for an hour's enjoyment. So
well pleased was the audience with
Mrs. Lemmon that at the instance of
Lawyer Hoffman a vote was taken to
give a second entertainment on Tues-
day night and again the house was
crowded by an appreciative audience.
Mrs. Lemmon came among us as a
stranger but she left with many ad-
miring friends."

JAMESTOWN HAS

AN EXPO TODAY

(Continued from Page 1.)

In motion the machinery of the expo-
sition. "Simultaneously hundreds of
flags broke to the breeze, and cannon
roared their accompaniment to the
strains of "America," played by the
manned bands. So loud was the ap-
proach that the benediction closing the
exercises was unheard.

Big Military Pageant.

The great military parade which
was designed to be "distinctly the
show spectacle of the opening cere-
monies" was held immediately after
the conclusion of the literary exer-
cises, and it proved to be all that its
promoters could wish, and all that the
regiment could hope for. The sight of the
marching troops from the point oc-
cupied by President Roosevelt's review-
ing stand was one long to be remem-
bered. On the reviewing stand, be-
sides the President of the United
States and his cabinet, were the diplo-
matic corps officers and directors of
the Jamestown Exposition Company,
members of congress, the general as-
sembly of Virginia, United States and
state commissioners to the expo-
sition, officials and representatives from
the different states of the union, of-
ficers of the various historical socie-
ties and the mayors and municipal
officers of the cities surrounding
Hampton Roads.

History of the Exposition.

More than five years have elapsed
since the fact that Jamestown today
in the form of an exposition, was first
brought to the attention of the public.
The idea attracted instant and wide-
spread attention, though it was not
until several years later that it was
given definite shape and the actual
plans were drawn. It was soon seen
that it was not practicable to build
the exposition on or near James
Island, where the first settlement was
located. The island is a low piece
of land about thirty miles from the
mouth of the James River, and was
formerly a peninsula. It did not at-
ford room for an exposition of any
size and moreover it was difficult to
reach.

Because there was no place nearer
the original site, the Norfolk corpora-
tion, which was organized to promote
and manage the exposition, selected
a site on the beach of Hampton
Roads, opposite Old Point Comfort,
near the mouth of Elizabeth River.
The grounds can easily be reached by
trolley car from Norfolk and Ports-
mouth and by water from Fortress
Monroe, Newport News and Hampton.
The organizers of the corporation
issued at the start about \$1,500,000
in stock, which was increased by
liberal appropriations by the state of
Virginia and the federal government.

Description of the Exposition.

The exposition is designed to be
chiefly of an historical and educa-
tional character, though manufactures
and the industries have not been ne-
glected. The general plan of the
grounds is, to a certain extent, simi-
lar to that of other big fairs that have
gone before—a central court sur-
rounded by the more important and
imposing buildings. At Jamestown
this court is framed on three sides
only by buildings, whereas the fourth
rests on the water front with two
great piers stretching out nearly half
a mile into the bay. These piers have
towers at the far ends and are joined
by a bridge, thus inclosing a basin
some forty acres in area. This body
of water is called Smith Harbor, in
honor of Captain John Smith, and
here will be held the aquatic contests
that are to form an important part
of the exhibition's athletic attrac-
tions. The basin is also to serve as a
harbor and landing place for small
craft.

Many Large Buildings.

The exposition buildings proper
consist of about twenty-five struc-
tures, many of them handsome palaces
of permanent construction, after the
colonial style of architecture. Among
the principal buildings and those that
will attract most attention, both as
to their size and construction, as
well as to the exhibits they contain,
are the auditorium and convention
hall, palace of manufactures and
liberal arts, palace of machinery and
transportation, state's exhibit palace,
mining and metallurgy building, hy-
gienic and medical, pure foods build-
ing, palace of history and historic
arts, and the education building. Be-
sides these there is what is known as
the "arts and crafts village," consist-
ing of seven cottages, after the
style of colonial architecture. These
are the textile building, copper, sil-
ver and woodworkers' shops, pottery
shops, iron shops, model school,
mothers and children's building, and
Pocahontas hospital. In the indus-

DELICATE CHILDREN

Advice to Jamestown Mothers Who

Have Delicate Children.

If we could only make all fathers
and mothers in Jamestown regard what
we say there would be fewer sickly,
delicate children on our streets.
Rapidly growing children need a
great deal of vitality. They grow fast,
play hard, and work too hard at school,
and many such children are tired,
thin, pale and worn when they ought
to be robust and rosy.

Every run-down, growing child in
Janesville should take Vinol, our de-
licious cod liver preparation without
oil. It requires almost no digestion at
all, and cannot upset delicate, weak-
ened stomachs as do old-fashioned cod
liver oil and emulsions. Vinol also
contains peptonate of iron.

It strengthens the digestive organs,
makes new vitality, sound flesh, and
muscle tissue, strong bone structure
and pure, rich, red blood. Vinol fills
out hollow cheeks and makes thin lit-
tle arms and legs plump and round.

Said a member of the Smith Drug
Co.: "We cannot recommend Vinol too
highly for puny, weak and ailing chil-
dren, to build up the run-down, over-
worked, tired and debilitated, or to
give renewed vitality to the aged, and
we cheerfully refund the money in
every case where it fails." Smith
Drug Co.

NOTE.—While we are sole agents
for Vinol in Janesville, it is now for
sale at the leading drug store in nearly
every town and city in the country.
Look for the Vinol agency in your
town.

trial building of this group are to be

facturing in the lines indicated by the
names three hundred years ago.

Participation of the States.

The liberal participation of the vari-
ous states of the union is one of the
most gratifying features of the entire
enterprise. Nearly thirty states have
made liberal provision for represen-
tation at the exposition and the most
of them have erected buildings to
serve as headquarters. Some of these
buildings are among the most attrac-
tive features of the fair. The Virginia
building is a reproduction of the home
of Madison. Especial interest at-
taches to the Georgia building be-
cause it is a copy of Bulfinch Hall,
the birthplace and home of President
Roosevelt's mother. Ohio has a
reproduction of the first stone house
built west of the Allegheny moun-
tains. Pennsylvania has reproduced
independence hall. Maryland's ex-
hibit is housed in Carroll Hall, the
home of Governor Carroll of Mary-
land, signer of the Declaration of In-
dependence. The Talmadge home, the
first colonial mansion built in Con-
necticut, has been copied for that
state's representation. The Massa-
chusetts building is a replica of the
old state house in Boston, and Rhode
Island has a similar feature. Beau-
voir, the Mississippi home of Jeffers-
on Davis, has been reproduced as
headquarters for the Daughters of the
Confederacy. Other states that are
represented either by buildings or
their own, or by elaborate displays in
the various exhibition palaces include
Louisiana, Missouri, New Jersey,
North Dakota, North Carolina, Okla-
homa, Tennessee, West Virginia, and
New Hampshire.

Government Participation.

The fact that the government has
appropriated over a million and a
half dollars for the various govern-
ment buildings, naval and military
improvements, is a guarantee that
this feature alone will attract world-
wide attention. The department of
state exhibits facsimiles of the
Declaration of Independence, the
articles of confederation and the con-
stitution, together with many other
valuable and interesting documents.
The treasury department will main-
tain a small bureau of engraving and
printing, which will illustrate the
method of plate work used in that
department. The exhibits of the war
and navy departments are extremely
comprehensive, and in connection
with the military and naval display,
will be more elaborate than at any
former exposition. The life-saving
service will operate a completely
equipped station, where exhibits of
the apparatus and crews in action
will be given from time to time. The
postoffice department will run a
model postoffice, demonstrating the
workings of the many new inventions
in connection with the mail depart-
ment. The Smithsonian institution
has made a comprehensive exhibit,
embracing all of its departments,
namely, ethnological, anthropological,
geological, and biological. The li-
brary of congress shows a model of
the new library, together with rare
maps, letters and other papers of in-
terest.

Great Naval Spectacle.

Probably the most novel and at-
tractive feature of the entire expo-
sition is the great international naval
spectacle. The great nations of the
earth have sent their warships at the
invitation of President Roosevelt.
Ships flying the flags of fifteen dif-
ferent nations are now anchored in
Hampton Roads and others are ex-
pected to arrive within a week or two.
Never before in the history of this or
any country has there been such a
concourse of fighting vessels. Great
Britain, Germany, France, Russia,
Japan, Denmark, Portugal, Austria,
Italy, Chile and Spain are among the
nations represented. A special fea-
ture of the naval program is to be a
reproduction of the battle between the
Merimac and Monitor in Hamp-
ton Roads, as it was fought in 1862,
and which inaugurated a new era in
naval warfare. The government has
appropriated \$10,000 alone for the re-
production of this famous battle be-
tween the first ironclads.

Features of the Warpath.

The "Warpath," guaranteed to
contain the latest novelties and the
best collection of amusements ever
grouped at an exposition, is to be the
playground at Jamestown, as the far-
famed "Midway" was at the Chicago
fair and the "Pike" at St. Louis. In
these amusements the airships will
be especially featured. There are to
be competitive flights of airships,
races of dirigible airships for com-
mercial use, races of military airships,
and a section of the "Warpath" will
also contain a collection of "villages"—
Indian, Japanese, Eskimo,
negro, etc. Another attractive fea-
ture is an exact reproduction of the
old town of Jamestown as it was
three centuries ago.

Apotheosis of Amateur Sport.

Never in the history of the world
has a program of amateur sports
equalled that which has been arrang-
ed to take place here during the com-
ing summer and fall. Each division
of the program will offer an attrac-
tion of its kind that has never been
surpassed in the United States, and
when taken in its entirety, will eclipse
any similar effort ever attempted any-
where. The program consists of ath-
letic field games, yacht and motor-boat
racing, rowing regattas and aeronautics,
and each division is to be under
the direction of a committee, the
members of which are eminent in the
amateur sporting world.

Near-By Attractions.

No previous exposition in this coun-
try has been within easy reach of so
many miles from the exposition grounds
as Cape Henry, where the first Eng-
lish settlers disembarked in 1607, and
within a short distance is Jame-
stown, the site of the first settlement.
Nearby is Yorktown, where Cornwall-
is surrendered to the Continental army.
Immediately across Hampton
Roads is Newport News, a thriving
city which has one of the largest ship
building plants and dry docks in the
world. Hampton, which almost ad-
joins this place, is the oldest contin-
uous settlement of Englishmen in
America. At Old Point Comfort is
located the greatest fortress in the
United States and the principal ar-
tillery station of the army. From the
exposition visitors may take side
trips to the civil war battlefields of
Virginia and Maryland, to Mt. Vernon,
the home of Washington, and to the
national capital, to Richmond, Bal-
timore and an almost innumerable list
of other places of great interest.

LARGE ATTENDANCE

AT BOYS' CARNIVAL

Hundred Fifty Members and Non-

Members Enjoyed Games, Pro-

gram and Refreshments.

Success, beyond all expectations, re-
warded the promoters of the boys' ath-
letic carnival, held at the Y. M. C. A.
building yesterday afternoon. Junior
members, accompanied by one or two
non-members, to the number of a hun-
dred and fifty, assembled at four
o'clock and participated in various
games and amusements. The gymna-
sol program was followed by an ad-
dress of welcome from F. F. Lewis,
president of the association, a talk on
"Opportunity" by S. M. Smith, a read-
ing by Miss Florence Spooner and ex-
hibition on the parallel bars by Ster-
ling Campbell and Alfred Grissold.
Forty mothers were in attendance and
after their departure refreshments, of
the kind that delight the inner boy,
were served. The carnival was in
charge of Dr. F. T. Richards and Field
Secretary Berryman.

AT DEDICATION OF

FEDERAL BUILDING

Contractor John P. Cullen Witnessed

Ceremonies Attendant on Opening

of Structure Here Erected.

At Hammond, Ind., yesterday a
handsome new federal building, erect-
ed at a cost of \$150,000, was dedicated
and among the most interested spec-
tators was John P. Cullen of the Janes-
ville firm of J. P. Cullen & Co., who
were the contractors. The structure,
which is of stone and steel construction,
occupies a block in the center of
Hammond. The dedicatory ceremonies
were very elaborate, there being a re-
ception at two in the afternoon, an ad-
dress by Congressman E. D. Crum-
paker at three and a banquet at the
evening. State legislators, prominent
business and leading professional men
were in attendance.

FIRST DANCE OF SEASON

AT SINNISSIPPI GROUNDS

Was Enjoyed by a Company of Young

People Last Evening—Grate Fire

Much Appreciated.

Last evening two caravans con-
veyed a merry company of young people
to the golf links where the summer
season was unofficially opened with
a rousing grate fire and a dance which
lasted from eight until twelve. Three
of the Knott & Hatch orchestra fur-
nished the music and the program
was varied with the introduction of
stunts and other novelties. Those in
the company were: The Misses Flor-
ence Palmer, Lillian and Charlotte
Mount, Joan Shearer, Josephine Treat,
Euretta Kimball, Vera and Elizabeth
Wilcox, Alice Harper, Grace Valen-
tine, May Humphrey, and Louise Mer-
rill; the Messrs. Rollin Lewis, Sam
Echlin, William McNeil, Bert Schlatt-
er, Burns Brewer, Stanley Woodruff,
L. Brownell, Charles Tallman,
Frank Kimball, John Shearer, and
Fred Greene.

RICH HAUL OF DIAMONDS.

Thieves Get Stones Worth \$5,000 from

Oakland Store.

Oakland, Cal., April 26.—Three
thieves Thursday made away with a
tray containing \$5,000 worth of dia-
monds from the store of Paul C.
Pulse, Thirteenth and Washington
streets. Three women clerks were in
the jewelry store. Two men entered
and engaged them in conversation,
the third man remaining near the
door. Suddenly one of the men opened
the sliding back window, seized a
tray of diamonds and ran up the
street. His associates boarded a car
and all escaped.

PEOPLE OF MADRID EXCITED.

Eagerly Await News of Birth of the

Royal Child.

Madrid, April 26.—Public suspense
has reached the highest point and ev-
ery unusual noise is mistaken by the
excited populace for the booming of a
royal salute announcing the birth of
an heir to the throne. Crowds follow
the carriage of every minister seen in
the vicinity of the palace, supposing
that he has been summoned to see
the newly born child.

The physicians in attendance upon
Queen Victoria report her condition
as normal. There was a brilliant con-
cert at the palace Wednesday night.
Queen Victoria attended and remained
until 11 o'clock. Thursday her
majesty took her usual morning and
afternoon drives and was greeted ev-
erywhere by the warm-hearted people
with affectionate demonstration.

All the ancient ceremonies held in
connection with the birth of a child
to the king and queen have been pre-
pared for. Many holy relics and sym-
bols have arrived at the palace, includ-
ing the girdle of Toros, which dates
from the twelfth century and is sup-
posed to be of particular virtue to
women about to become mothers.

The annual spring opening at the
Grange store brought a crowd of out-
of-town people here yesterday. The
receipts for the day were among the
largest in the history of the store.
The Evansville band rendered excel-
lent music throughout the evening,
which called forth many expressions
of well merited praise.

Rev. G. H. Scheible has returned
from Prairie du Sac, where he has
been attending conference and the
numerous friends of the family here
and at Center will be pleased to know
that he has been returned as their
pastor for another year.

Wednesday afternoon Mr. and Mrs.
Fred Baker and daughter June went
to Janesville, where Miss Baker play-
ed at a piano recital given by Prof.
Taylor that evening.

The home of Prof. and Mrs. Pero
was glorified Sunday, April 21, by
the arrival of a little son.

Mrs. S. E. Barnard left Wednesday
for Madison, where she will be the
guest of Mr. and Mrs. Fred Hudson
for a few days.

The Stoughton baseball team will
meet the Evansville high school team
here next Saturday.

NATIONAL BISCUIT COMPANY

A MAKER OF HISTORY

By E. PHILLIPS OPPENHEIM,

Author of "The Master Mummer," "A Prince of Sinners," "Mysterious Mr. Sabin," "Anna the Adventuress," Etc.

Copyright, 1905, 1906, by LITTLE, BROWN, and COMPANY.

The station master beamed all over. With a shout which must have reached the village he awakened the sleeping man. In less than five minutes the Englishman and his luggage were stored away in the carriage. His ticket had been examined by the station master and smilingly accepted. There were more bows and salutes, and the carriage drove off. Guy Poynton leaned back among the moldy leather upholstery and smiled complacently.

"Easiest thing in the world to get on in a foreign country with a phrase book and your wits," he remarked to himself. "Jove, I am hungry."

He drove into a village of half a dozen houses or so, which reminded him of the pictured abodes of Noah and his brethren. An astonished innkeeper, whose morning attire apparently consisted of trousers, shirt and spectacles, ushered him into a bare room with a trestle table. Guy produced his phrase book.

"Hungry?" he said vociferously. "Want to eat? Coffee?"

The man appeared to understand, but in case there should have been any mistake Guy followed him into the kitchen. The driver, who had lost no time, was already there, with a long glass of beer before him. Guy produced a mark, laid it on the table, touched himself, the innkeeper and the driver and pointed to the beer. The innkeeper understood, and the beer was good.

The driver, who had been of course indifferently overpaid, settled down in his corner and announced his intention of seeing through to the end this most extraordinary and heaven directed occurrence. The innkeeper and his wife busied themselves with the breakfast, and Guy made remarks every now and then from his phrase book, which were usually incomprehensible, except when they concerned a further supply of beer.

With a brave acceptance of the courtesies of the country, he had accepted a cigar from the driver and was already contemplating the awful moment when he would have to light it. Just then an interruption came.

It was something very official, but whether military or of the police Guy could not tell. It strode into the room with clanking of spurs, and the driver and innkeeper alike stood up in respect. It saluted Guy. Guy took off his hat. Then there came words, but Guy was busy with his phrase book.

"I cannot a word of German speak," he announced at last.

A deadlock ensued. The innkeeper and the driver rushed into the breach. Conversation became furious. Guy took advantage of the moment to slip the cigar into his pocket and to light a cigarette. Finally the officer swung himself round and departed abruptly.

"Dolmetscher," the driver announced to him triumphantly.

"Dolmetscher," the innkeeper repeated.

Guy turned it up in his phrase book and found that it meant interpreter. He devoted himself then to stimulating the preparations for breakfast.

"The meal was ready at last. There were eggs and ham and veal, dark colored bread and coffee, sufficient for about a dozen people. The driver constituted himself host, and Guy, with a shout of laughter, sat down where he was and ate. In the midst of the meal the officer reappeared, ushering in a small, wizened faced individual of unmistakably English appearance. Guy turned round in his chair, and the newcomer touched his forehead.

"Hello!" Guy exclaimed. "You're English!"

"Yes, sir," the man answered. "Come over to train polo poules for the Prince of Haensburg. Not in any trouble, I

hope, sir?"

"Not I," Guy answered cheerily. "Don't mind my going on with my breakfast, do you? What's it all about? Who's the gentleman with the fireman's helmet on, and what's he worrying about?"

"He is an officer of the police, sir, on special service," the man answered. "You have been reported for trespassing on the state railway this morning."

"Trespassing be blowed!" Guy answered. "I've got my ticket for the frontier. We were blocked by signal about half a dozen miles off this place, and I got down to stretch my legs. I understood them to say that we could not go on for half an hour or so. They never tried to stop my getting down, and then off they went without any warning and left me there."

"I will translate to the officer, sir," the man said.

"Right," Guy declared. "Go ahead." There was a brisk colloquy between the two. Then the little man began again.

"He says that your train passed here at midnight and that you did not arrive until past 6."

"Quite right," Guy admitted. "I went to sleep. I didn't know how far it was to the station, and I was dead tired."

"The officer wishes to know whether many trains passed you in the night?"

"Can't say," Guy answered. "I sleep very soundly, and I never opened my eyes after the first few minutes."

"The officer wishes to know whether you saw anything unusual upon the line," the little man asked.

"Nothing at all," Guy answered coolly. "But inquisitive, isn't he?"

The little man came a little closer to the table.

"He wishes to see your passport, sir," he announced.

Guy handed it to him; also a letter of credit and several other documents.

"He wants to know why you were going to the frontier, sir."

"Sort of fancy to say that I'd been in Russia; that's all," Guy answered. "You tell him I'm a perfectly harmless individual. Never been abroad before."

The officer listened and took notes in his pocketbook of the passport and letter of credit. Then he departed, with a formal salute, and they heard his horse's hoofs ring upon the road outside as he galloped away.

The little man came close up to the table.

"You'll excuse me, sir," he said; "but you seem to have upset the officials very much by being upon the line last night. There have been some rumors going about—but perhaps you're best not to know that. May I give you a word of advice, sir?"

"Let me give you one," Guy declared. "Try this beer!"

"I thank you, sir," the man answered. "I will do so with pleasure. But if you are really an ordinary tourist, sir, as I have no doubt you are, let this man drive you to Streven and take the train for the Austrian frontier. You may save yourself a good deal of unpleasantness."

"I'll do it," Guy declared. "Vienna was the next place I was going to anyhow. You tell the fellow where to take me, will you?"

The man spoke rapidly to the driver.

"I think that you will be followed, sir," he added, turning to Guy; "but very likely they won't interfere with you. The railway last night for twenty miles back was held up for state purposes. We none of us know why, and it doesn't do to be too curious over here, but they have an idea that you are either a journalist or a spy."

"Civis Britannicus sum!" the boy answered, with a laugh.

"It doesn't quite mean what it used to, sir," the man answered quietly.

CHAPTER II.

EXACTLY a week later, at five minutes after midnight, Guy Poynton, in immaculate evening dress, entered the Cafe Montmartre in Paris. He made his way through the heterogeneous little crowd of men and women who were drinking at the bar, past the scarlet coated orchestra, into the inner room, where the tables were laid for supper. Monsieur Alfred, satisfied with the appearance of his new client, led him at once to a small table, submitted the wine carte and summoned a waiter. With some difficulty, as his French was very little better than his German, he ordered supper and then, lighting a cigarette, leaned back against the wall and looked round to see if he could discover any English or Americans.

The room was only moderately full, for the hour was a little early for this quarter of Paris. Nevertheless he was quick to appreciate a certain spirit of Bohemianism which pleased him. Every one talked to their neighbors. An American from the further end of the room raised his glass and drank his health. A pretty, fair haired girl leaned over from her table and smiled at him.

"Monsieur like talk with me, eh?" "English?" he asked.

"No. De Wien?" He shook his head smilingly. "We shouldn't get on," he declared. "Can't speak the language." (To be Continued.)

PURE FOOD LAWS DEFIED.

Preservative For Meats Is Found in Use in Kansas.

Topeka, Kan., April 25.—Dr. S. J. Crumline, secretary of the state board of health, announced Thursday that he had discovered in use here a preservative for meats, the manufacturers of which, he asserts, are openly defying the state and federal pure food laws. The preservative is made in the east and chemical tests show that it contains charcoal and pure sulphur, which when burned form a sulphur dioxide gas that is absorbed by the meat and has the same effect as borax. The manufacturers in their circulars state that the preservative makes it possible for butchers to evade the law, contending that the powder itself does not touch the meat.

Secretary Crumline has notified all pure food inspectors in Kansas to warn butchers against the use of the preservative and he says he will submit the matter to Dr. Harvey W. Wiley, chief of the bureau of chemistry at Washington.

BIG FIRE IN MINNEAPOLIS

WISCONSIN CENTRAL FREIGHT DEPOT IS DESTROYED.

High Wind and Many Explosions Brought the Firemen's Efforts—Loss Will Be \$400,000.

Minneapolis, Minn., April 26.—Fire destroyed the Wisconsin Central freight depot in this city Thursday, entailing a loss of \$400,000. The flames broke out from an unknown origin and almost in an instant the entire building was a mass of flames.

A strong northwest wind made the firemen's task a hard one, and the firemen fought the flames from every point of vantage, but were time and again forced back by explosions of oil on the tracks and in storage.

At 4:10 a terrific explosion occurred and with a roar the walls on the west side fell in, tearing down a large platform upon which the firemen had been stationed. Soon afterwards the east wall followed, covering up the passenger tracks entering the Union depot.

The employees were working in the building at the time and were forced to take a hurried exit to save their lives. About 18 box cars containing freight of every description, valued at \$100,000, were sidetracked under the shed, and these proved fuel to the flames. The train crew worked heroically to save them, but were unsuccessful for a time. Finally they succeeded in pulling a string of cars out. Among the freight was a carload of automobiles which had just arrived. These were destroyed.

Mans Burns to Death in Jail. Chisley, Fla., April 26.—The jail building here was destroyed by fire early Thursday and one prisoner, Henry Berry, white, was burned to death. The jail was full of prisoners and it is believed they tried to burn their way out.

Theatrical Manager Dies. Cincinnati, April 26.—John A. Avery, manager of the Lyceum theater of this city, died at his home here Thursday night of heart disease. Mr. Avery was born at Avon, Ill., 59 years ago. He was well known in theatrical circles throughout the country.

Women Journalists. I am always careful not to recommend any girl starting life to embark on a journalistic career unless she is capable of great physical endurance and has indomitable perseverance; both are indispensable. She must also possess great moral courage, for that, too, will be tried.—Young Woman.

Washing Done Right Is a Pleasure. Soaked in tepid Peosta Suds then lightly rubbed out, rinsed and blued, clothes are as white as the driven snow—and are saved from the wear and tear of hard rubbing. DR. D. JAYNE'S EXPECTORANT

Upon the first sign of a cough or congested cold, go to your druggist and get a bottle of this remedy—the oldest and most reliable known—for Coughs, Colds, Bronchitis, Pleurisy, Inflammation of the Lungs, and similar diseases.

In countless numbers of homes this has been a standard remedy for 77 years.

All druggists sell it in \$1.00, 50c. and 25c. bottles. Jayne's Tonic Vermifuge is a splendid tonic for adults as well as a safe Worm Cure for children.

Washing Done Right Is a Pleasure. Soaked in tepid Peosta Suds then lightly rubbed out, rinsed and blued, clothes are as white as the driven snow—and are saved from the wear and tear of hard rubbing. The saving amounts to more than the cost of the soap. Think of the saving of clothes, fuel, time and strength.

Use Beach's Peosta Soap. 2—"Shave" a Bar of Beach's Peosta Soap into an earthen or enameled dish, pour over it two or three quarts of hot water, set on the back of range where it will keep warm, cover closely and leave until dissolved.

NERVOUS DEBILITY. Are you nervous and despondent; weak and debilitated; tired, nervous; no ambition—lifeless, memory poor; easily fatigued; excitable and irritable; eyes sunken, red and blurred; pimples on face; dreams and night terrors; restless, languid looking; weak back; dizziness in orine and drains at stool; distrustful; want of confidence; lack of energy and strength?

Sexual Weakness and Private Diseases a Specialty. Blood Poison, Syphilis, Gonorrhea, Stricture, Gleet, Spermatitis, Varicocele, Hydrocele, Seminal Weakness and the effects of early vice or excess, producing Emissions, Debility, Nervousness, Dizziness, Defective Memory, etc., which ruin mind and body, positively cured.

WONDERFUL CURES. Perfected in old cases which have been neglected or unskillfully treated. No external remedies or surgery. No incurable cases, but cure thousands given up to die.

Independence for the American Cigar Smoker

That's What

The American Cigar Company Stands For

You can't be an independent smoker as long as you depend on somebody else to select your cigars for you.

You must *know* what you want and *get it*.

The "Triangle A" means *freedom*.

It means better cigars of every grade than the best made under old conditions.

It's the Identification Mark of Cigar Quality

Do you realize that you have always bought cigars without any reliable guide as to quality, value or condition? The question is: How can you know you are getting the best cigar for your money?

You can be sure before you buy.

Wherever you buy, whatever price you pay, whatever your taste, you will find the best cigar for your money in boxes bearing the "Triangle A" mark of merit.

—no matter what the brand name. This "A" (Triangle A) mark identifies the product of recently perfected processes of fermenting and blending extensively applied on scientific principles in the American Cigar Company's immense specially-constructed stemmeries—exclusive methods beyond the knowledge or facilities of ordinary manufacturers.

The New CREMO

Every box is now extra-wrapped in glassine paper, sealed at each end with the "Triangle A" in red. The cigars are kept clean, fresh and in perfect smoking condition until the box is opened.
